Group: 4	Date: 29-11-2025	Week: 2

Reflective Entry (Weekly activities)	Signature and remarks of faculty
- Read 2 papers related to Diabetics decision support & Voice based agriculture advisory call centre - MD Ruhul Ameen, “KrishokBondhu: A Retrieval-Augmented Voice-Based Agricultural Advisory Call Center for Bengali Farmers”, 2025 - Adiba Haque, “Automatic diabetes prediction with explainable machine learning techniques”, 2025 - Our team had a discussion with supervisor and we made our decision to proceed with Agriculture based AI Agent. - Now we are looking for datasets which are open source to build a Bangla LLM Architecture from scratch. I explored some LLM models which are available online like Llama- 3b, Gamma etc
